

BRING IT. ON

The logo features the text 'BRING' in white, 'IT.' in white on a red square, and 'ON' in white. Below 'ON' are Facebook and Twitter icons. The background is dark teal with various tech icons like servers, a camera, a monitor, a laptop, a keyboard, a mouse, a printer, a CPU, a hard drive, a SSD, a game controller, and a cloud.

How to Choose your Degree

Who should you talk to in advance of your decision?

You should consider:

- Your Careers Teacher.
- Your Subject Teachers.
- Your Parents.
- Someone working in the career area you are interested in.

What else can you do?

- Attend the FE College and University Open days.
- Consider who or what will help you to find the information?

What should you be aware of before you attend an Open Day?

- You should consider what your real interests are.
- Your need to know what your main strengths and skills are.

What information do you need to find out on the Open Days?

- Find out what the course entails and including the types of modules and assessment.
- Is an industrial placement part of the course?
- What skills do you need to be successful on this particular course?
- Do your personal skills match the skills requirement for the course?
